

## Health Care

### Exam & Patient Rooms

Place Smart-Leafs in exam rooms and patient rooms, and experience an increase in:

- Productivity
- Efficiency
- Quality of care

#### • On Standby

As a stationary access point, the Smart-Leaf is on standby for assistance. Unlike carted laptops which wander away, the Smart-Leaf is always at the point of service.

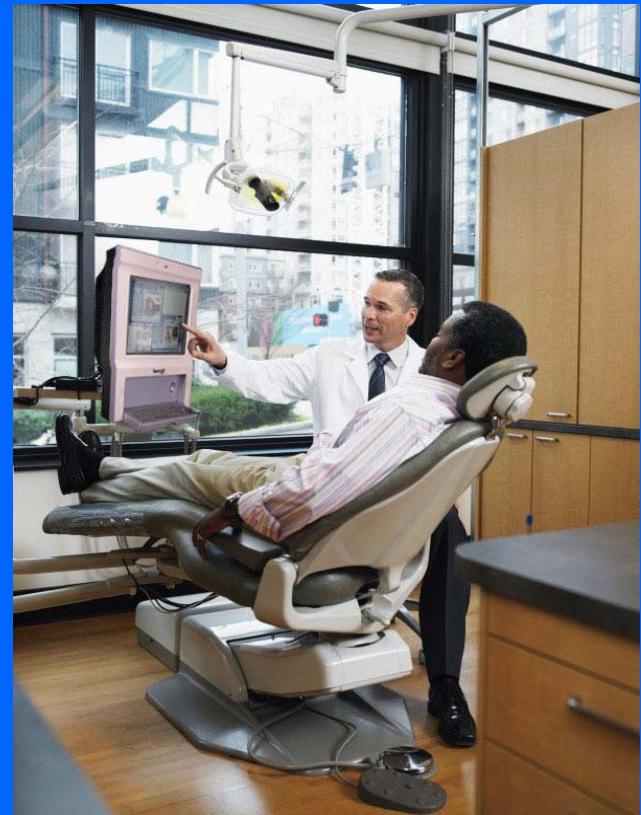

#### • Space Savings

The Smart-Leaf has a compact, all-in-one form factor. When mounted, the Smart-Leaf occupies no floor or counter space. What's more, the Smart-Leaf has only one cord, eliminating the cord clutter of traditional computers.

#### • Hygiene

The Smart-Leaf has the following features to reduce the spread of bacteria and infectious diseases:

- ◆ Splash-proof protection suitable for disinfectant spraying and wipe-down of face and keyboard
- ◆ IP54 splash-proof LCD
- ◆ IP54 splash-proof keyboard
- ◆ Optional stainless steel keyboard

#### • Electronic Medical Records

The Smart-Leaf enables health care providers to efficiently access and update the patient's electronic medical records.

## Health Care

### Care Management

Disperse Smart-Leafs throughout your medical facility to facilitate:

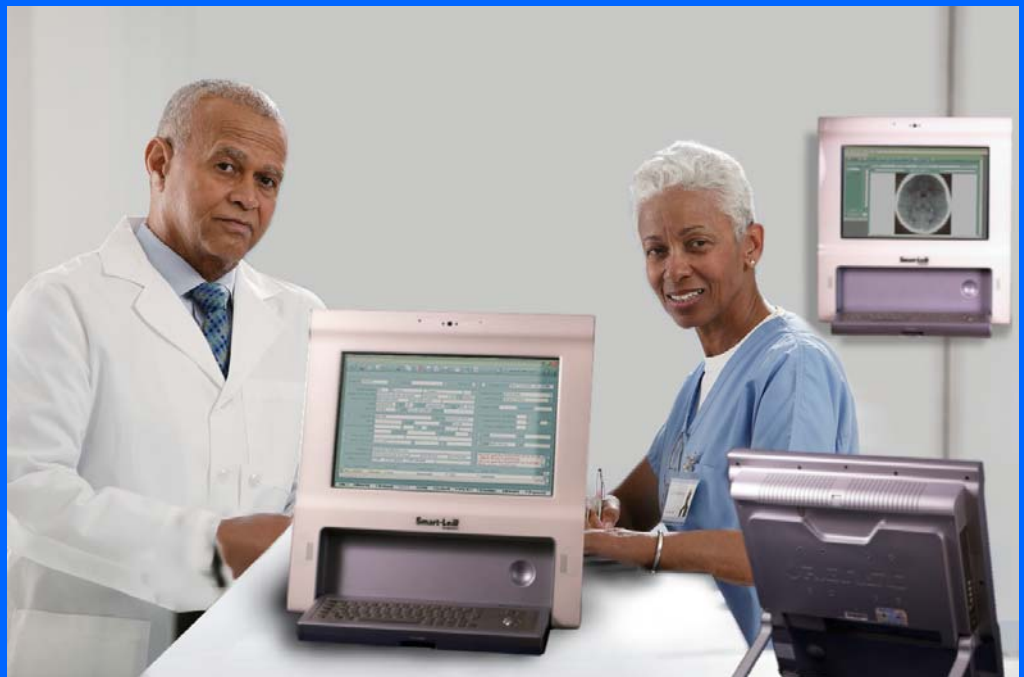

- Access to electronic medical records
- Access to online medical resources
- Adherence to electronic medical record objectives

- The Smart-Leaf provides quick and easy access to medical images and data.

### • High Durability

With its suite of durability features, the Smart-Leaf stands-up to the tough environments of the medical field.

- ◆ IP54 splash-proof
- ◆ Touch screen with protection glass
- ◆ Stainless steel keyboard
- ◆ Scratch-guard laminate
- ◆ Lockable power and keyboard
- ◆ Over-force protection for keyboard

- Smart-Leafs, in desk mode and wall mode, play an essential role in nurse stations.

## Health Care

### Medical Data

The Smart-Leaf simplifies:

- Access to medical data
- Entry of medical data
- Collection of data from patients

- The Smart-Leaf is a powerful tool in the tight quarters of a pharmacy.

- As an alternative to the Smart-Leaf's touch screen, practitioners may comfortably type using the fold-out keyboard.

- The Smart-Leaf, loaded with patient registration software, substantially reduces the time and cost associated with the patient registration process.

- Simply close the keyboard to return the Smart-Leaf to its slim profile.
